DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, there is no operation or purpose recited for the “master controller”. In line 4, it is not understood from where the “supply voltage indicator” is received. In line 6, it is not understood from where the “body bias indicator” is received.

Claims 2-9 are rejected for the reasons discussed above with claim 1.

In claims 10-15, the method therein is deemed indefinite for similar reasons as discussed with the apparatus of claims 1 and 7-9.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7-9, 10, 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Mizuno et al. (USPN 6,380,798). Mizuno et al. disclose, in Fig. 1, a circuit comprising: “a master controller (providing signal 103)”; “a dynamic voltage supplier (101)”; “an adaptive body biaseer (102)”; and “a plurality of computing devices (100)”, all connected and operating similarly as recited by Applicant.

Art Unit: 2816

Claims 2-6 and 11-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
